ALLERGEN POLICY

Object: statement of allergen policy

This is a written statement how we organize at IMCO Premium Foods Ltd. our policy with allergens. We are trading with food ingredients and we have the following allergens present in our warehouse: Gluten, Mustard Seeds, Nuts, Peanuts, Sesame Seeds and products preserved with Sulphur Dioxide. All allergens are stored in designated areas and cross-contamination is excluded when a product has been resaled in original packing.

Occasionally we are packing ingredients in smaller size which is documented in our records and in all specification.

In order to avoid cross contamination we use since July 2015 strict colour code system in our packing area (utensils, scoops, mixing containers etc.):

Gluten = BLUE

Mustard Seeds = YELLOW

Nuts (also peanuts) = RED

Sesame Seeds = GREEN

No allergens = WHITE

Labels on repacked items contain allergen info. Staff working in packing area are trained. Holding ISO 22000:2005 certification the proper dealing with allergens and possible cross contamination is part of our Company objectives.

Please contact me if you have more question,

A handwritten signature in black ink, appearing to be 'I. Meszaros', written over a light blue horizontal line.
